Flexible Veterinary Pathologist Opportunities in ANZ

Across the globe the team at IDEXX are focused on enhancing the health and well-being of pets, people, and livestock. We live and work in an incredible environment full of passionate and committed people. What we do each day is more than just a job, and that creates an energy which is contagious.

Our business continues to grow. There is considerable flexibility within our business therefore we seek expressions of interest in a full or part time, remote or on-site anatomic or clinical pathologist in Australia or New Zealand.

As part of IDEXX you will be making a difference to pets and peoples' lives by providing excellent animal care. Our Veterinary Pathologists play a key role in exceeding our customers' expectations through interpretation of results and providing professional advice. Our stimulating caseload includes companion and production animals, equine, and exotic species. We have excellent connections and support with internal medicine specialists and broader business teams.

You may choose to actively participate in provision of continuing education to our clients, as well as provide support and training for our laboratory staff, technical specialists, and pathology residents.

Your experience in anatomic or clinical diagnostic veterinary pathology and a demonstrated commitment to high quality service will be highly regarded. A specialist qualification is preferred, although other suitably experienced applicants looking to grow their careers with IDEXX will be considered.

IDEXX will support you in a professional environment which provides opportunities for further career development through our structured continuing professional development (CPD) program. We offer regular case rounds and other team learning opportunities and provide great support to our trainees and to those preparing for specialist examination.

IDEXX will assist you to obtain the right to work, registration with the appropriate Veterinary Board and relocation assistance if appropriate to enable you to immediately become a productive member of the IDEXX team.

If you are interested in opportunities, please forward your resume and covering letter to anz-careers@idexx.com
