

Veterinary Clinical Pathologist

ASAP Laboratory (a subsidiary of Dorevitch Pathology, A Healius Group Company) is a specialist veterinary laboratory dedicated to providing an outstanding clinically orientated diagnostic veterinary pathology service to veterinarians throughout Victoria. ASAP Laboratory offer a comprehensive range of veterinary pathology testing, including biochemistry and haematology, microbiology, endocrinology, serology, histopathology and cytology. We pride ourselves on providing a quality veterinary pathology service. ASAP Laboratory is the state-based point of service in Victoria within the national SVS Pathology Network. Nationally SVS Pathology Network has the most extensive laboratory courier network in Australia.

The caseload is interesting and varied, being mainly from companion animals, horses, and wildlife with some production animal work and work up of challenging cases including from local veterinary referral specialist practices. There is opportunity for supervision of the veterinary pathologist team.

The Position:

ASAP Laboratory is seeking a full time or part time Veterinary Clinical Pathologist. The position is in Mulgrave, Victoria, Australia. Remuneration is commensurate with skills and experience. Relocation support is available where required.

Duties and Responsibilities:

- Evaluating and reporting clinical pathology data including haematology, cytology, clinical chemistry, endocrinology, serology and microbiology.
- Providing training and technical guidance for laboratory personnel.
- Assisting with development of laboratory methods and procedures.
- Interacting with veterinary customers through interpretation of laboratory results and through continuing education seminars.

Requirements:

- Veterinary degree suitable for registration in Australia.
- Specialist qualification in veterinary clinical pathology is preferred (ACVP or ECVF board certification or Fellow of ANZCVS). Board eligible applicants will also be considered.
- Previous experience (minimum 2 years) in diagnostic veterinary pathology is preferred. Applicants with less diagnostic experience but appropriate qualifications will also be considered.
- Excellent oral and written communication skills, commitment to providing a quality service and ability to work in a team environment.
- Full working rights within Australia.

Additional information about ASAP Laboratory is available at www.asaplab.com.au
