

**Australia**

## **Anatomic Pathologist**

### **The Opportunity**

Due to our continuing growth we have identified the need for a full time Veterinary Pathologist to join our team in Australia. To be a success in this role you will be an experienced Veterinary Pathologist with qualifications in anatomic pathology.

Your day will be spent delivering an efficient, effective, comprehensive and timely veterinary pathology service with diagnostic anatomic pathology evaluations, interpretations and follow-up consultation. You will have access to the very latest high-resolution digital pathology solutions to enable you to collaborate easily with your IDEXX colleagues throughout the country and the world.

In addition, the responsibilities of our pathology team include participating in training and education opportunities for veterinary clients, participating in internal and external quality control programs within the national laboratory network and contributing to the continuous quality improvement processes.

Our professional team environment provides great opportunities for Continuing Professional Development and excellent support for your career.

### **What do you need to succeed?**

We are looking for an Anatomic Pathologist with interest predominantly in companion animals. A veterinary degree suitable for Australian registration, previous experience in diagnostic veterinary pathology and a demonstrated commitment to high quality service are required. Diplomates of the ACVP or ECVP or Fellows of the ANZCVSc are preferred, although other highly qualified applicants will be considered.

### **What we can offer?**

This is a true opportunity join a global market leader that continues to reinvest \$100M per annum into research and development within veterinary diagnostics. You will be working in an innovative environment, utilising the latest technology and contributing holistically to an organization that improves the lives of pets, people and livestock in Australia.

We build and share knowledge, foster collegiality, and facilitate collaboration through regular case reviews with an IDEXX team of diagnostic professionals (both locally and globally). We also endorse and encourage CPD with an emphasis on regular attendance at national and international conferences. There is some flexibility in terms of working hours, and we provide ongoing health and wellness activities, and voluntary community leave entitlements.

### **Why IDEXX?**

We're proud of the work we do, because our work matters. An innovation leader in every industry we serve, we follow our Purpose and Guiding Principles to help pet owners worldwide keep their companion animals healthy and happy, to ensure safe drinking water for billions, and to help farmers protect livestock and poultry from disease. We have customers in over 175 countries and a global workforce of over 9,000 talented people.

Let's pursue what matters together!

If you are interested in making a difference with a growing market leader, please forward your application to Kathryn Kelly, Talent Acquisition Specialist, [anz-careers@idexx.com](mailto:anz-careers@idexx.com)
